

GOMMALUX

Description:

Gommalux by Fra-Ber is a **professional tyre shine** available in different formats and in a **gloss or matt finish**, also suitable for plastic parts and fascias. **It is non-greasy, non-sticky and enhances** all types of tyres. Main features:

- **Preserves and protects tyres:** the innovative components penetrate the micropores to prevent age-related cracking when used over time and to protect against the elements;
- **Shine effect:** the 250 ml and 600 ml aerosol formats have an extra shiny gloss finish;
- **Semi-matt finish:** the 750 ml and 1 L formats have a semi-matt finish that can be further mattified by additionally diluting the product;
- **Multi-purpose:** it can be used on both tyres and plastic parts such as fascias, bumpers and mirrors;
- **Multi-format:** it is available in a 250 ml and 600 ml aerosol format, and in a 750 ml and 1 L non-aerosol format.

Direction for use:

We recommend using Gommalux as a tyre shine and restorer and protective treatment for tyres and plastic parts.

The main steps change depending on the selected format:

1. **Gommalux 750 ml 1 L non-aerosol format:**

- a. Clean and dry the area to be treated;
- b. For a semi-matt effect, use the product pure;
- c. For a matt effect, dilute to a ratio of 1:2, i.e., use 330 ml of product and top up with water (670 ml) to obtain a 1 L ready-to-use solution;
- d. Apply the product evenly with a sponge.

Precautions: Do not apply on the tread.

Warnings:

When handling the product, observe the advice on the safety data sheet.

Technical features:

Appearance and color: colourless liquid

Odour: characteristic

pH: $7,4 \pm 0,5$

Flash point: $> 100^{\circ}\text{C}$

Relative density: $1,07 \text{ g/cm}^3 \pm 0,05$

Solubility in water: soluble

Oil Solubility: partially soluble

Storage:

Unopened and stored away from direct sunlight and frost.

Packaging:
