

BUBBLE RINSE

Description:

Bubble Rinse by Fra-Ber is an **acid rinse aid for dishwashers** that when combined with the washing liquid, makes dishes, glasses, cutlery and plates shine. Main features:

- **Sparkling dishes:** the product is formulated to ensure dry and sparkling dishes and glasses at the end of the dishwasher wash and dry cycle;
- **Fast drying:** its characteristics help reduce the surface tension of the water, allowing it to slide on the surface of the dishes and reducing drying times;
- **Prevents streaking:** dull-looking glassware and crockery will be a thing of the past with our rinse aid, specifically designed to counteract these common problems;
- **Counters limescale:** using Bubble Rinse helps counteract the minerals in hard water and remove traces of limescale;
- **Counters water stains:** its water-repellent action aids the complete drying of glassware, plates and dishes, preventing the formation of irritating stains;
- **Premium raw materials:** the formula is the result of careful research and the selection of premium raw materials, as well as plant surfactants;
- **Effective at low temperatures and short cycles:** it also works at short wash cycle, eco-washing and a low temperature;
- **Multi-format:** it is available in a 500 ml format and 5 L can.

Direction for use:

We recommend using Bubble Rinse as a dishwasher and rinse aid.

Main dosages:

- **For household dishwashers:** dose the product in the special container. Set the rinse aid dose to level 1 or 2.
- **For industrial dishwashers:** the product is dosed through the dishwasher's integrated dosing system or through the programmable dosing units. The dosage values can vary from 0.2 to 0.35 grams per litre of water depending on the water hardness, soil level and type of dishwasher. See the table below for more details. See the instructions for use of the machine manufacturer.

Water hardness	Dosage
Soft (< 8.4 ° dH) < 1.5 mmol/l	0,2 g/l water
Moderate (> 8.4 ° dH – 14 ° dH) 1.5 – 2.5 mmol/l	0,35 g/l water
Hard (> 14 ° dH) > 2.5 mmol/l	0,35 g/l water

Use: use the product pure.

Warnings:

When handling the product, observe the advice on the safety data sheet.

Technical features:

Appearance and color: colourless liquid

Odour: characteristic

pH: 4,1 ± 0,5

Flash point: > 60°C
