

FORTE SANY

Description:

Forte Sany by Fra-Ber is a **steel degreaser and kitchen hygieniser**** effective on tough dirt like grease, oil, and plant and animal proteins. Main features:

- **Ideal for cleaning steel:** it is formulated to degrease and polish stainless steel stove tops, hoods, worktops and appliances;
- **Suitable for use in HACCP plans:** its degreasing and cleaning properties make it suitable for use in HACCP-compliant cleaning processes;
- **Cleans, removing germs and bacteria***: it helps remove germs and bacteria* along with the dirt;
- **Suitable as a kitchen cleaner:** it removes stubborn dirt like grease and burnt food residue or buildup, making it a valuable ally for cleaning domestic and professional kitchens and appliances such as hoods, ovens, barbecues, grills, slicers, fridges, stove tops and hobs;
- **Multi-purpose:** it can be used as a powerful degreaser to clean bathrooms, mechanical parts, floors and surfaces even after building works or for use with professional equipment such as single-disc scrubbers and wet/dry vacuum cleaners;
- **Multi-format:** it is available in a 750 ml format and a 1 L format and 4,54L format as a concentrate for dilution;
- **Citrus fragrance:** it leaves a pleasant scent after each application.

* The statements "protects against germs or bacteria" or "removal of germs and bacteria", if present, refer to a physical or mechanical action. For example, the mechanical action of the cloth exerted by the operator also allows the removal of germs and bacteria on the treated surface, along with the dirt.

** The term "hygienising", if present, refers to a physical or mechanical action. For example, the mechanical action of the cloth exerted by the operator.

Direction for use:

We recommend using Forte Sany as a steel degreaser and kitchen hygieniser**.

The main steps and dilution ratios change depending on the selected format:

1. Forte Sany 750 ml:

- a. Spray the product onto the stain and area to be treated;
 - b. Wipe with a damp cloth;
 - c. Leave on for 5–15 minutes for a more powerful hygienising effect**;
- Use:** use the product pure.

2. Forte Sany 1000 ml:

- a. **For routine surface cleaning:**
 - i. Dilute to a ratio between 1:15 and 1:19, i.e., use between 60 ml and 50 ml of product and top up with water (between 940 ml and 950 ml) to obtain a 1 L ready-to-use solution;
 - ii. Spray the product onto a microfibre or fabric cloth and treat the surface;
- b. **For routine floor cleaning:**
 - i. Dilute to a ratio between 1:43 and 1:65, i.e., use between 90 ml and 60 ml of product and top up with water (between 3910 ml and 3940 ml) to obtain a 4 L ready-to-use solution;
 - ii. For intensive cleaning (hygienising with wet method/rubbing/manual cleaning), dilute to a ratio of 1:20, i.e., use 390 ml of product and top up with water (7610 ml) to obtain an 8 L ready-to-use solution;

- c. **For after building cleaning (hygienising):**
 - i. Dilute to a ratio between 1:3 and 1:7, i.e., use between 2 L and 1 L of product and top up with water (between 6 L and 7 L) to obtain an 8 L ready-to-use solution;
- d. **Deep cleaning (abrasive hygienising), single-disc scrubber and wet/dry vacuum cleaner:**
 - i. Dilute to a ratio of 1:18, i.e., use 420 ml of product and top up with cold water (7580 ml) to obtain an 8 L ready-to-use solution.

3. Forte sany 4,54 L:

- a. **For routine surface and floor cleaning:**
 - i. Dilute to a ratio between 1:43 and 1:79 i.e., use between 90 ml and 50 ml of product and top up with water (between 3910 ml and 3950 ml) to obtain a 4 L ready-to-use solution;
 - ii. For intensive cleaning dilute to a ratio of 1:20, i.e., use 390 ml of product and top up with water (7610 ml) to obtain an 8 L ready-to-use solution;
- b. **For single-disc scrubber and wet/dry vacuum cleaner:**
 - i. Dilute to a ratio of 1:18, i.e., use 420 ml of product and top up with cold water (7580 ml) to obtain an 8 L ready-to-use solution;

Precautions: Always rinse thoroughly. On delicate surfaces, a spot test should always be performed before use. Surfaces in direct contact with foodstuffs must be repeatedly rinsed with hot potable water (40°C - 60°C, 8 - 16 l per m²) after hygienising**.

Warnings:

When handling the product, observe the advice on the safety data sheet.

Technical features:

Appearance and color: light yellow liquid

Odour: characteristic

pH: 10,9 ± 0,5

Flash point: > 100°C

Relative density: 1,12 g/cm³ ± 0,05

Solubility in water: soluble

Oil Solubility: partially soluble

Storage:

Unopened and stored away from direct sunlight and frost.

Packaging:
