

## MICRON SCRUB

Micron Scrub by Fra-Ber is a specialised microfibre and foam pad designed for cleaning car interiors and materials such as leather, fabrics and plastic parts. Main features:

- **Double-sided and dual use:** the pad features one side in black microfibre that can be used for routine cleaning or to apply coatings, and a white abrasive scrub side for deep-cleaning fabrics or leather;
- **Suitable for car interiors:** it can be used to clean seats, dashboards, steering wheels, mats, gear knobs, door panels and boots;
- **Easy to use:** its rectangular format allows for handy folding for easier access to hard-to-reach areas that are difficult to clean with brushes or other types of tools;
- **Greater control over cleaning:** the pillow-shaped design allows greater control during cleaning, allowing more precise and targeted stain and dirt removal in specific areas;
- **Easy to reuse:** the foam inside the pad allows easy cleaning by simply rinsing it in a bucket of water and wringing it out;
- **Dimensions:** 15x9 cm;
- **Resealable pouch:** it is sold in a long-zip pouch to store the pad after its first use and to prevent its contamination by dirt and dust.

### How to clean micron scrub:

- We recommend washing the accessory before first use to prevent the colour from staining;
- Wash with warm or hot water using TEX. Machine washing at maximum 30° C;
- Do not mix with other types of fabric;
- Do not use fabric softeners as these tend to alter the properties of the microfibre;
- Do not use bleach as this tends to alter the properties of the microfibre;
- Do not tumble dry.

### Packaging:

| PACKAGING        | BOX | COD. ART. |
