

SPUMONE SELF

Description:

Spumone Self by Fra-Ber is a **super-powerful detergent and all-purpose degreaser** that can also be used as a pre-wash for cars and industrial and commercial vehicles. Main features:

- **Extra-strong professional degreaser:** its high cleaning power makes it ideal for use on stubborn and difficult-to-remove dirt;
- **Suitable as a pre-wash:** it can be applied to vehicles to eliminate smog, traffic film and gnats;
- **Suitable for industrial use:** it is ideal for cleaning grease and oil, making it a valuable ally for cleaning mechanical parts, engines or workshop and industrial floors;
- **Concentrated:** the product has a high concentration of active substances and is sold as a concentrate to be diluted before use, with 1 L of product yielding up to 50 L of ready-to-use solution;
- **Suitable for all vehicles:** it can be used on all types of vehicles including sports cars, utility vehicles, vans, camper vans, trucks and tractors.

Direction for use:

We recommend using Spumone Self as both a degreaser for stubborn dirt and as a pre-wash prior to shampooing. The dilution ratios change depending on the selected method of use.

As a degreaser for stubborn and built-up dirt:

1. Spray on the surface and leave on for a few minutes;
2. Rinse with a damp cloth;

As a pre-wash:

1. On vertical surfaces, apply the product from the bottom up, thus avoiding vertical dripping when rinsing;
2. Apply evenly on the parts to be treated;
3. Rinse with plenty of water and dry;

For pre-washing with a pressure spray pump: dilute to a ratio between 1:25 and 1:50, i.e., use between 40 ml and 20 ml of product and top up with water (between 960 ml and 980 ml) to obtain a 1 L ready-to-use solution.

For pre-washing with a foam gun and foam lance: dilute to a ratio between 1:2 and 1:3, i.e., use between 330 ml and 250 ml of product and top up with water (between 675 ml and 750 ml) to obtain a 1 L ready-to-use solution. During application, the actual dilution may reach between roughly 1:45 and 1:60.

As a degreaser on stubborn dirt and as a concentrated pre-wash spray on gnats: use in a graduated trigger bottle diluted to a ratio of 1:9, i.e., use 100 ml of product and top up with water (900 ml) to obtain a 1 L ready-to-use solution.

Precautions: Do not allow the product to dry and do not apply in the sun and on hot or delicate surfaces. The product can be applied on dry bodywork, however, during the summer or in extremely hot regions, it is recommended to rinse the car first to lower its temperature and prevent it from drying during application.

Warnings:

When handling the product, observe the advice on the safety data sheet.

Technical features:

Appearance and color: red liquid

Odour: characteristic

pH: 13,9 ± 0,5

Flash point: > 100°C

Relative density: 1,14 g/cm³ ± 0,05

Solubility in water: soluble

Oil Solubility: partially soluble

Storage:

Unopened and stored away from direct sunlight and frost.

Packaging:

PACKAGING	BOX	COD. ART.
BOTTLE 1L	6 pz	700387 (Public)
