

HULK

Description

Hulk by Fra-Ber is a **boat degreaser** and is specific for stubborn dirt such as grease, smog and fuel residues.

Main features:

- **Cleans stubborn dirt:** it can be used to clean the toughest dirt such as smog, grease and fuel residues, thereby making it the ideal cleaner for boat engines or naval workshops.
- **Suitable for nautical materials:** it can be used to clean fibreglass, sails, bilges and engine compartments without damaging plastics.
- **Suitable for all types of boats:** it can be used to clean boats, dinghies, tenders and sailboats.
- **Concentrated:** the product has a high concentration of active substances and is sold in a concentrated format to get more performance out of every single drop.
- **No added phosphates, EDTA and NTA*:** it is formulated taking into account the most environmentally hazardous substances to be avoided, such as phosphates, EDTA and NTA.
- **It also contains biodegradable plant surfactants**:** this aspect makes it possible to be increasingly respectful of the environment, specifically the sea with excellent cleaning results.

*May contain traces.

** contains surfactants that fulfil the biodegradability criteria according to Regulation (EC) 648/2004.

How to use:

We recommend using Hulk as a degreaser for boats and for grease, smog and fuel residues.

Main steps:

1. Dilute from 40 ml to 20 ml of product per 1 L of water
2. Wash the boat with a sponge or brush
3. Rinse with plenty of water

For regular cleaning: use a 1:24 to 1:49 dilution ratio, i.e. use 40 ml to 20 ml of product and top up the remaining part with water (960 ml to 980 ml) to obtain a ready-to-use 1 L solution.

For intensive cleaning or cleaning of the engine compartment: use the 1:31 dilution ratio, i.e. use up to 250 ml of product and top up the remaining part with water (7750 ml) to obtain a ready-to-use 8 L solution.

Caution:

Observe the advice on the safety data sheet when handling the product.

Technical properties:

Appearance and colour: orange liquid

Odour: characteristic

pH: 11.4 ± 0.5

Flash point: $> 100^{\circ}\text{C}$

Relative density: 1.07 ± 0.05

Solubility in water: soluble

Solubility in oil: partially soluble

Storage:

In unopened packaging and stored away from direct sunlight and frost.
